

Preheater - CEH 1-2-3

The CEH 1-2-3 is a complete compact coolant heater incorporating circulation pump. A high reliable, compact and economical preheater for engines with forced circulation. Preheating is throught contact between resistance and fluid (Conduction principle).

Applications

Generators sets, diesel engines, marine, heavy equipment, security and other industrial applications...

The best of technology

The positioning of the control device avoids the destructive condensation of internal components. Thermostats pilot with a static power relay of 20 A gives almost a unlimited service life.

Specifications

Pump ITT LOWARA EV 25/4 230 V 50/60Hz IP 44: Energy class A (2). Power: 9 à 35 Watts. Vertical or horizontal installation.

 200-240 Volts, 50/60 Hz power supply - others on request

- Protective cover: IP 55 aluminum
- Control thermostat: 0-80°C manual adjustment range
- Water inlet and outlet: G F¹/₂"
- Manual air bleeder
- Temperature range: 30-45°C as standard (Option on request)

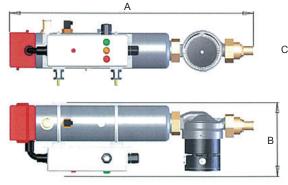

1 Heating element, max. power flux density: 9-13.5 W/cm2. Electrical connections: Clips to ensure reliable contact

- 2 Protective cover
- 3 Manual air bleeder
- 4 Drain plugs
- 5 Water inlet and outlet couplings: G3/4" x dia. 18 mm
- 6 Regulation Control Box: Polyester IP 66

- 7 Manual Control Thermostat; 20 A, 250 V 100,000 cycles.
- 8 110°C security thermostat manual reset.
 Industrial cables: H07RNF with protective sheath.
 150 cm connesction cable
- 9 Low water level sensor (option)
- 10 Pump

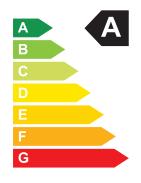

| Model | Power* | Voltage** | Frequency | A - Length | B - Width | C - Height |
|-------|--------|---------------|-----------|------------|-----------|------------|
| CEH 1 | 4 kW | 200/240 Volts | 50/60 Hz | 479 mm | 143 mm | 173 mm |
| CEH 2 | 6 kW | 200/240 Volts | 50/60 Hz | 572 mm | 143 mm | 173 mm |
| CEH 3 | 9 kW | 200/240 Volts | 50/60 Hz | 572 mm | 143 mm | 173 mm |
